

Art 142:

FINAL EXAM EXERCISES

Only 2 of the following exercises will be on your final (different files, same techniques.) You should make sure you know how to do all of these. You may turn these practice exercises in for extra credit.

- There are five files in a folder in Artshared > Dallal Art 142 F14> Distribute > Practice Final.
- Copy the folder to your computer.

To turn in for extra credit:

- Re-title the folder “your last name_practice final” and place it in Artshared > Dallal Art 142 F14> Turn-in > Practice Final.
- Add your last name to the beginning of each file name.
- In addition to the files, turn in a screen shot of each image showing the relevant panels: layers/paths/etc.

Directions:

1) Cat

Using refine edge to select the soft edge and an adjustment layer, make the cat brown without changing the background color.
Turn the file in as a layered psd.

2) The Bride

The bride’s white dress has a blue cast to it.
Using an adjustment layer, neutralize the blue cast so the dress appears white.
Turn in as a layered psd.

3) Boot

Using the pen tool, strip out the boot from the background.
Replace the background with a plain white background.
Turn in as a layered CMYK tiff file.

4) Family

Resize this photo for use on a website. Make the final size 1000 px wide, RGB color.
Turn in as a jpg.

5) Woman

Retouch the woman’s face to make her look better, but not unreal. Make her face less red, her eyes less red, get rid of the shine on her skin and the blemishes, soften the wrinkles.
Turn in as a layered psd.
